

Greg Girardin
Auburn, ME
January 2020

The screenshot shows a web application titled "Chords" with a light gray header. Below the header, there are several interactive elements: a "Guitar" dropdown menu with a blue arrow pointing down, a "C" dropdown menu with a blue arrow pointing down, a "major" dropdown menu with a blue arrow pointing down, a "+" button, a "C" dropdown menu with a downward arrow, a "major" dropdown menu with a downward arrow, a "Notes" button, and a "24" button. The main area displays two guitar fretboards. The top fretboard is labeled with fret numbers 0 through 24 at the top. The strings are labeled E, B, G, D, A, E from top to bottom. Red circles with black outlines represent the notes of the C major chord: C (Bass), E (Middle), and G (Treble). The bottom fretboard shows the same fret numbers and string labels, but with black dots and white circles containing numbers (3, 5) indicating fingerings for the notes. The background of the fretboards is light gray with white grid lines for frets and strings.

```

setlist.py - Allows you to generate an html setlist file from lyrics.

To use, put all of your lyrics as txt files in a directory.

In a terminal window run `setlist.py` from your lyrics directory. It will scan the local directory for lyrics (.txt files) and these will show up in the library.

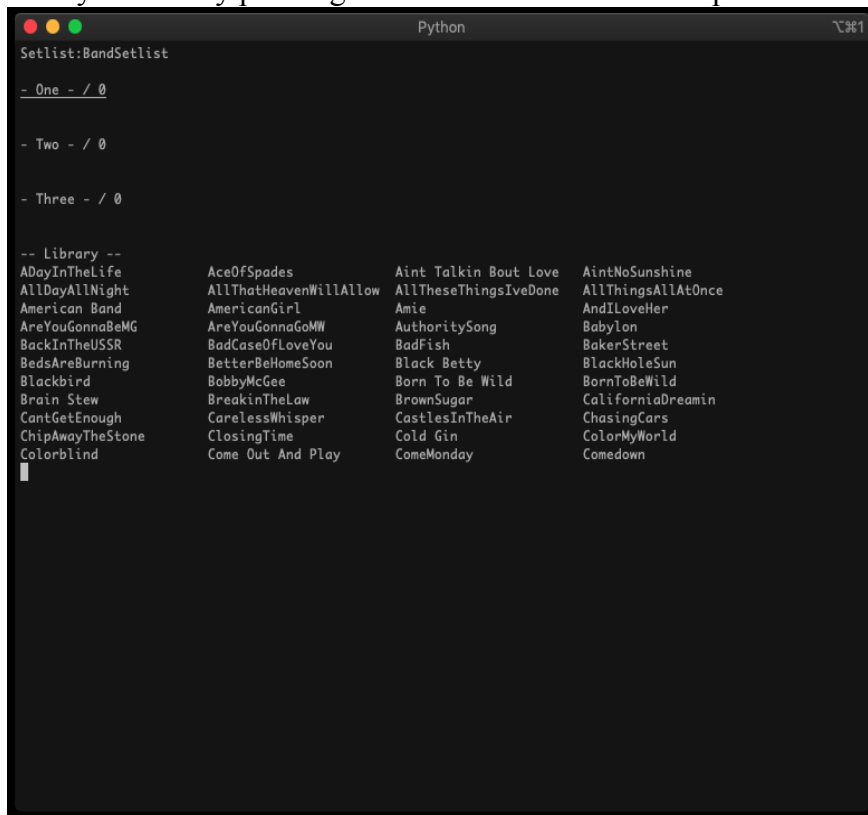

Press '?' to see the available commands.

Name your list by pressing 'N'. This will be the filename.

Add sets with "a". Navigate to the Library with the up/down/left/right/d/f. hjkl function as left/down/up/right.

You can jump to a specific set by pressing '12345..', you can jump to the library by pressing ~.

Name your sets by pressing 'n' while the cursor is in the particular set.

The screenshot shows a terminal window titled "Python" with a dark background. The application is in the "Setlist:BandSetlist" mode. It displays three sets, each with a name and a count (e.g., "- One - / 0"). Below the sets is a "Library" section containing a list of songs. The cursor is positioned at the beginning of the first song in the library, "ADayInTheLife".

```
Setlist:BandSetlist
- One - / 0

- Two - / 0

- Three - / 0

-- Library --
ADayInTheLife      AceOfSpades        Aint Talkin Bout Love  AintNoSunshine

Songs can be rearranged in the set by moving the cursor over the song and pressing 'm'. Move the song to the desired location and press 'm' again to return to cursor to normal mode. Sets can be rearranged by pressing 'M'. Press 'M' again to return to normal mode.

If a song is in the setlist more than once it will be highlighted in blue. If you're in the library and the song you're on is already in the setlist the song will be highlighted.

If you wish to highlight songs. Press 'h' with the cursor over the song. These songs will show up as red in the exported setlist. This is useful for indicating which songs are homework, new, or what have you.

Once the setlist is complete, press 's' to save. A file called "BandSetList.set" will be generated. You can edit this setlist later by pressing 'o'.

Press 'x' to export the list. "BandSetList.html" will be placed in the current directory. This is your setlist to be viewed in a browser. Click / tap the song title (the title is the first line of each lyric file) to expand/hide the lyrics.

The screenshot shows a web browser window with the address bar displaying "GBI.html" and the file path "/Users/ggirardin/Google%20Drive/GBI.html". The browser's toolbar includes icons for Facebook, Hotmail, Twitter, Strava, Dropbox, and folders for Videos, Finance, and Politics. The main content area has a title "GBI" and a section header "One". Below this is a list of 13 songs, each with its lyrics expanded. The second song, "Lean On Me", is highlighted in blue. The lyrics for "Lean On Me" are as follows:

1) No Woman No Cry

2) Lean On Me
V: C F C Em G - C F C G C
B: C G C

Sometimes in our lives we all have pain we all have sorrow
But if we are wise we know that there's always tomorrow

Lean on me, when you're not strong and I'll be your friend I'll help you carry on
For it won't be long 'til I'm gonna need somebody to lean on

Please swallow your pride if I have things you need to borrow
For no one can fill those of your needs that you won't let show

So just call on me brother, when you need a hand
We all need somebody to lean on
I just might have a problem that you'd understand
We all need somebody to lean on

Lean on me, when you're not strong and I'll be your friend I'll help you carry on
For it won't be long 'til I'm gonna need somebody to lean on

So just call on me brother, when you need a hand...

If there is a load you have to bear that you can't carry
I'm right up the road, I'll share your load if you just call me
call me...

3) We Can Work It Out

4) Wichita Lineman

5) Holding back the years

6) Lucky Man

7) Do It Again

8) Mad World

9) Fragile

10) It's Probably Me

11) All things all at once

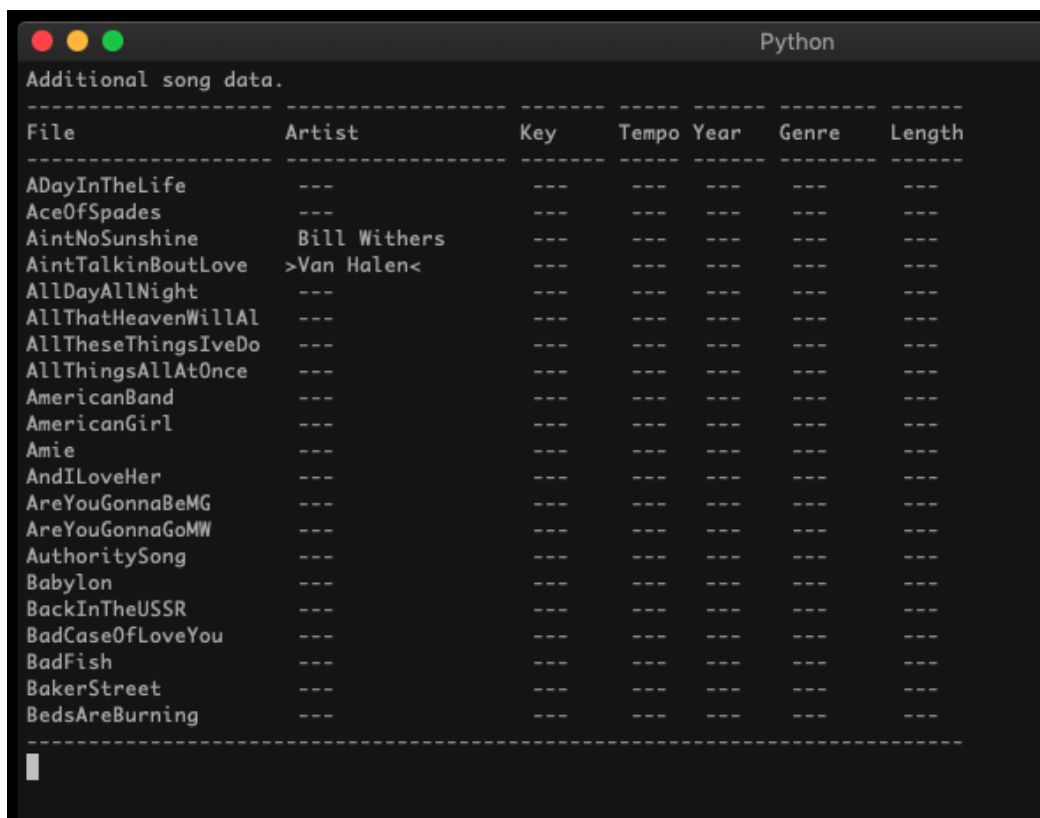

12) Crazy (Cee Lo)

13) Spooky

Additional Song Data

Additional information about a lyric file can be provided. This information is saved in a separate file from the lyrics.

Press 'e' to edit song data, you'll see this screen:

The screenshot shows a terminal window titled "Python" with a dark background. It displays a table for editing song data. The table has seven columns: File, Artist, Key, Tempo, Year, Genre, and Length. The data is as follows:

File	Artist	Key	Tempo	Year	Genre	Length
ADayInTheLife	---	---	---	---	---	---
AceOfSpades	---	---	---	---	---	---
AintNoSunshine	Bill Withers	---	---	---	---	---
AintTalkinBoutLove	>Van Halen<	---	---	---	---	---
AllDayAllNight	---	---	---	---	---	---
AllThatHeavenWillAl	---	---	---	---	---	---
AllTheseThingsIveDo	---	---	---	---	---	---
AllThingsAllAtOnce	---	---	---	---	---	---
AmericanBand	---	---	---	---	---	---
AmericanGirl	---	---	---	---	---	---
Amie	---	---	---	---	---	---
AndILoveHer	---	---	---	---	---	---
AreYouGonnaBeMG	---	---	---	---	---	---
AreYouGonnaGoMW	---	---	---	---	---	---
AuthoritySong	---	---	---	---	---	---
Babylon	---	---	---	---	---	---
BackInTheUSSR	---	---	---	---	---	---
BadCaseOfLoveYou	---	---	---	---	---	---
BadFish	---	---	---	---	---	---
BakerStreet	---	---	---	---	---	---
BedsAreBurning	---	---	---	---	---	---

If present it will be added within the generated setlist file at export. In the set list editor screen you can use “[“ and “]” to view songs based on this additional data. Songs which match will be highlighted in red. This is useful for seeing which songs are all in a certain key, fit a certain genre, or what have you.

Lyric Files

Lyrics files are text files with a .txt extension. The first line in the file must be the name of the song and will be used as the title of the song in the generated setlist (instead of the filename).

A few shortcuts that can be put in lyric files that setlist.py will interpret:

"c!" will be replaced with "Chorus"

"s!" will be replaced with "Solo"

"t!" will toggle usage of a fixed sized font (For tablature to keep it aligned)

“h!” will be replaced with “**Harmonica**”

You can also put in html tags as they will be pasted directly into the output file and the browser will simply interpret them.

For example, this txt file:

```
Sledgehammer
t!
B 10-----|-----|
G ---12-10-----|-----14-----|
D -----12-10-12---12-14-12-|10-12-14---14-12-10-12-|

I: D D Bb Bb/A G
V: D Bm
C: Bm C Em7
O: Dm Bb7 G7
t!

Hey use it, everybody use it!
You could have a steam train, if you'd just lay down your tracks.
You could have an aeroplane flying, if you bring your blue sky back.
All you do is call me I'll be anything you need.

You could have a big dipper, going up and down, around the bends.
You could have a bumper car bumping, this amusement never ends.

· I wanna be your sledgehammer. Why don't you call my name?
· Oh, let me be your sledgehammer, this will be my testimony.

Show me round your fruitcage 'cos I will be your honey bee.
Open up your fruitcage, where the fruit is as sweet as can be.

c!

s!

I've kicked the habit, shed my skin
This is the new stuff I go dancing in
Won't you show for me, I will show for you

You've been coming through, going to build that power
I've been feeding the rhythm..
Come on help me through...
```

Will look like this in the set list html:

1) Sledgehammer

B 10-----|-----|
G ---12-10-----|-----14-----|
D -----12-10-12----12-14-12-|10-12-14----14-12-10-12-|

I: D D Bb Bb/A G

V: D Bm

C: Bm C Em7

O: Dm Bb7 G7

Hey use it, everybody use it!
You could have a steam train, if you'd just lay down your tracks.
You could have an aeroplane flying, if you bring your blue sky back.
All you do is call me I'll be anything you need.

You could have a big dipper, going up and down, around the bends.
You could have a bumper car bumping, this amusement never ends.
