

A few music related utilities I've written. I wrote them using Python 2 but they run with Python 3.

Greg Girardin
Auburn, ME
January 2020

chords.py - A python fretboard display utility. Uses tkInter. Click the instrument, key and chord/scale you want to display.

tab.py – Terminal based tablature creator for quickly getting down ideas. Tab can be export as txt or html.

setlist.py - Allows you to generate an html setlist file from lyrics.

Put all of your lyrics as txt files in a directory.

In a terminal window run `setlist.py` from your lyrics directory. It will scan the local directory for lyrics (.txt files) and these will show up in the library.

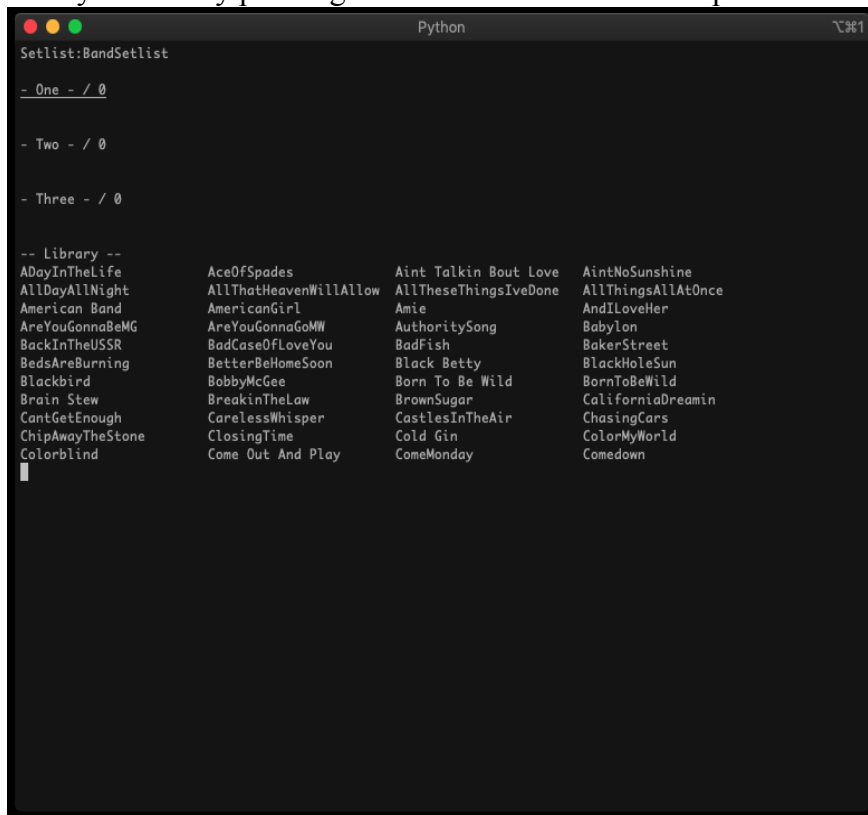

Press '?' to see the available commands.

Name your list by pressing 'N'. This will be the filename.

Add sets with "a". Navigate to the Library with the up/down/left/right/d/f. hjkl function as left/down/up/right.

You can jump to a specific set by pressing '12345..', you can jump to the library by pressing ~.

Name your sets by pressing 'n' while the cursor is in the particular set.

The screenshot shows a terminal window titled "Python" with a dark background. The application is in the "Setlist:BandSetlist" mode. It displays three sets, each with a name and a count (e.g., "- One - / 0"). Below the sets is a "Library" section containing a list of songs. The cursor is positioned at the beginning of the first song in the library, "ADayInTheLife".

```
Setlist:BandSetlist
- One - / 0

- Two - / 0

- Three - / 0

-- Library --
ADayInTheLife      AceOfSpades        Aint Talkin Bout Love  AintNoSunshine
AllDayAllNight     AllThatHeavenWillAllow AllTheseThingsIveDone  AllThingsAllAtOnce
American Band      AmericanGirl        Amie                    AndILoveHer
AreYouGonnaBeMG     AreYouGonnaGoMW     AuthoritySong           Babylon
BackInTheUSSR      BadCaseOfLoveYou    BadFish                 BakerStreet
BedsAreBurning     BetterBeHomeSoon    Black Betty             BlackHoleSun
Blackbird           BobbyMcGee           Born To Be Wild         BornToBeWild
Brain Stew          BreakinTheLaw        BrownSugar              CaliforniaDreamin
CantGetEnough       CarelessWhisper     CastlesInTheAir         ChasingCars
ChipAwayTheStone    ClosingTime          Cold Gin                ColorMyWorld
Colorblind          Come Out And Play    ComeMonday              Comedown
```

Navigate to the library. Add songs to the clipboard by pressing 'c' with the cursor over the desired song.

```

Songs can be rearranged in the set by moving the cursor over the song and pressing 'm'. Move the song to the desired location and press 'm' again to return to cursor to normal mode. Sets can be rearranged by pressing 'M'. Press 'M' again to return to normal mode.

If a song is in the setlist more than once it will be highlighted in blue. If you're in the library and the song you're on is already in the setlist the song will be highlighted.

If you wish to highlight songs. Press 'h' with the cursor over the song. These songs will show up as red in the exported setlist. This is useful for indicating which songs are homework, new, or what have you.

Once the setlist is complete, press 's' to save. A file called "BandSetList.set" will be generated. You can edit this setlist later by pressing 'o'.

Press 'x' to export the list. "BandSetList.html" will be placed in the current directory. This is your setlist to be viewed in a browser. Click / tap the song title (the title is the first line of each lyric file) to expand/hide the lyrics.

The screenshot shows a web browser window with the address bar displaying "GBI.html". The browser's address bar also shows the file path: "/Users/ggirardin/Google%20Drive/GBI.html". The browser's toolbar includes icons for Facebook, Hotmail, Twitter, Strava, Dropbox, Vid, Finance, and Pol. The main content area of the browser displays the title "GBI" in a large, bold, black font. Below the title, the word "One" is displayed in a smaller, bold, black font. The setlist is a list of 13 songs, each with its title and lyrics. The first two songs, "1) No Woman No Cry" and "2) Lean On Me", are highlighted in a light gray background. The lyrics for "Lean On Me" are displayed below the title. The remaining songs are listed without lyrics: "3) We Can Work It Out", "4) Wichita Lineman", "5) Holding back the years", "6) Lucky Man", "7) Do It Again", "8) Mad World", "9) Fragile", "10) It's Probably Me", "11) All things all at once", "12) Crazy (Cee Lo)", and "13) Spooky".

GBI

One

1) No Woman No Cry

2) Lean On Me

V: C F C Em G - C F C G C
B: C G C

Sometimes in our lives we all have pain we all have sorrow
But if we are wise we know that there's always tomorrow

Lean on me, when you're not strong and I'll be your friend I'll help you carry on
For it won't be long 'til I'm gonna need somebody to lean on

Please swallow your pride if I have things you need to borrow
For no one can fill those of your needs that you won't let show

So just call on me brother, when you need a hand
We all need somebody to lean on
I just might have a problem that you'd understand
We all need somebody to lean on

Lean on me, when you're not strong and I'll be your friend I'll help you carry on
For it won't be long 'til I'm gonna need somebody to lean on

So just call on me brother, when you need a hand...

If there is a load you have to bear that you can't carry
I'm right up the road, I'll share your load if you just call me
call me...

3) We Can Work It Out

4) Wichita Lineman

5) Holding back the years

6) Lucky Man

7) Do It Again

8) Mad World

9) Fragile

10) It's Probably Me

11) All things all at once

12) Crazy (Cee Lo)

13) Spooky

Lyric Files

Lyrics files are text files with a .txt extension. The first line in the file must be the name of the song and will be used as the title of the song in the generated setlist (instead of the filename).

A few shortcuts that can be put in lyric files that setlist.py will interpret:

"c!" will be replaced with "Chorus"

"s!" will be replaced with "Solo"

"t!" will toggle usage of a fixed sized font (For tablature to keep it aligned)

“h!” will be replaced with “**Harmonica**”

You can also put in html tags as they will be pasted directly into the output file and the browser will simply interpret them.

For example, this txt file:

```
Sledgehammer
t!
B 10-----|-----|
G ---12-10-----|-----14-----|
D -----12-10-12----12-14-12-|10-12-14----14-12-10-12-|

I: D D Bb Bb/A G
V: D Bm
C: Bm C Em7
O: Dm Bb7 G7
t!

Hey use it, everybody use it!
You could have a steam train, if you'd just lay down your tracks.
You could have an aeroplane flying, if you bring your blue sky back.
All you do is call me I'll be anything you need.

You could have a big dipper, going up and down, around the bends.
You could have a bumper car bumping, this amusement never ends.

· I wanna be your sledgehammer. Why don't you call my name?
· Oh, let me be your sledgehammer, this will be my testimony.

Show me round your fruitcage 'cos I will be your honey bee.
Open up your fruitcage, where the fruit is as sweet as can be.

c!

s!

I've kicked the habit, shed my skin
This is the new stuff I go dancing in
Won't you show for me, I will show for you

You've been coming through, going to build that power
I've been feeding the rhythm..
Come on help me through...
```

Will look like this in the set list html:

1) Sledgehammer

B 10-----|-----|
G ---12-10-----|-----14-----|
D -----12-10-12----12-14-12-|10-12-14----14-12-10-12-|

I: D D Bb Bb/A G

V: D Bm

C: Bm C Em7

O: Dm Bb7 G7

Hey use it, everybody use it!
You could have a steam train, if you'd just lay down your tracks.
You could have an aeroplane flying, if you bring your blue sky back.
All you do is call me I'll be anything you need.

You could have a big dipper, going up and down, around the bends.
You could have a bumper car bumping, this amusement never ends.

I wanna be your sledgehammer. Why don't you call my name?
Oh, let me be your sledgehammer, this will be my testimony.

Show me round your fruitcage 'cos I will be your honey bee.
Open up your fruitcage, where the fruit is as sweet as can be.

Chorus

Solo

I've kicked the habit, shed my skin
This is the new stuff I go dancing in
Won't you show for me, I will show for you

You've been coming through, going to build that power
I've been feeding the rhythm..
Come on help me through...
